Dear Seamus

Acceptance of Remediation and Environmental Protection Plan

Thank you for submitting Barwon Water Corporation's updated Remediation and Environmental Protection Plan for Boundary Creek, Big Swamp and surrounding environment. I note that the updated plan includes a section that directly acknowledges the feedback Southern Rural Water (SRW) has provided and a framework for responding to that feedback. I am pleased to advise that in accordance with the Section 78 notice, SRW accepts the plan and implementation may now commence.

SRW acknowledges the extensive work that has gone into developing the plan, both from a technical and a community engagement perspective. While remediation is a long process and there is much work to do, this plan is a significant and positive milestone.

I can confirm that SRW will retain its engagement with the local community and independent technical experts to ensure the adaptive measures within the plan are achieving the desired outcomes.

I look forward to the implementation phase of the plan commencing.

Yours sincerely,

CRAIG PARKER
