POLICY APPLICATION

The Diversity and Inclusion Policy applies to Southern Rural Water (SRW) Board of Directors and all employees, contractors, interns/trainees.

PRINCIPLES

We believe that a diverse workforce will enhance the services we provide to the community both now and in the future through greater perspective, broader thinking, alternative approaches and higher levels of creativity. We take a broad view of diversity and recognise diversity takes shape in a myriad of ways including: values; culture and religion; ethnicity and language; the spectrum of gender; socio-economic status; stage of life; geography and access to resources and opportunities. Family structures, social traditions and communities are diverse. Individuals have diverse roles and responsibilities within their families and communities.

People require different supports and opportunities to make their best contributions at work. They are diverse in the way they like to work, socialise and interact with each other.

We are committed to an inclusive workplace that embraces and promotes diversity. It is through an active focus on 'inclusion' that we create the conditions and environment to enable:

- everyone in our diverse workforce to thrive and make their best contributions at work, and
- our organisation to remain responsive and accessible to the whole of the community to make the most of diversity as an organisational asset.

- Gender Equity: improve and promote gender equality and diversity in the workplace through strengthening recruitment to foster a high-quality workforce reflective of gender diversity in our community. Support career pathways and opportunities for women in STEM, field and senior leadership roles by addressing issues, attitudes and practices and structures which negatively impact on gender-based workforce participation and progression.
