

WID Winter Irrigation Roster 2026

Southern Rural Water conducts critical maintenance activities from May to September each year. The winter irrigation roster allows Southern Rural Water and their contractors to complete these planned works on non-water supply periods and enables our customers to plan for their winter irrigation activities.

Water supply will be available to irrigators in the WID from Monday afternoon to Friday afternoon on the dates stipulated in the table below if there is enough demand. When there is not enough demand on a certain day, Southern Rural Water may consolidate the orders to another day. Planners will contact customers if your order is planned to be moved in these circumstances.

Dates	Comments
27 April – 1 May	Supply period – Monday PM to Friday PM.
2 - 10 May	Non supply period.
11 - 15 May	Supply period – Monday PM to Friday PM.
16 - 24 May	Non supply period.
25 - 29 May	Supply period – Monday PM to Friday PM.
30 May - 7 June	Non supply period.
8 - 19 June	2-week supply period – Monday PM to Friday PM.

6 - 10 July	Supply period – Monday PM to Friday PM.
11 - 19 July	Non supply period.
20 - 24 July	Supply period – Monday PM to Friday PM. No recycled water**
25 July – 2 August	Non supply period.
3 – 7 August	Supply period – Monday PM to Friday PM. No recycled water**
8 -16 August	Non supply period.
17 -21 August	Supply period – Monday PM to Friday PM.
22 - 30 August	Non supply period.
31 August	Commence weekly supply

Notes:

* As we need the last week in June and the first week in July to enter meter reads and reconcile end of season accounts, we are making water available for 2 weeks from 08 - 19 June for customers to fill dams.

** Recycled water will NOT be available from 09 July to 10 August as Melbourne Water will be undertaking their annual maintenance works at the Western Treatment Plant.

In exceptional circumstances if demand is high, we may deliver water on non-rostered days.

Please place your order on Waterline at www.srw.com.au/worder/ or by contacting the 24-hour telephone Water Ordering Service on **1300 360 117**. You will need to place your orders at least **one business day** before the water is required.
